THE ART AND PRACTICE OF

Spiritual Cleansing & Protection

- * Have you ever wondered what kind of energy you are carrying?
- * Often times we have energy on or around us that is not our own.
- * When things just aren't right or are not working, sometimes it is as simple as cleansing and protecting your own energy.

Spiritual cleansing is an important part of all spiritual work. Without it, we can become magnets for negativity and ill intention. As human beings, our daily lives put us in contact with many forms of energy that can get attached to us. Through spiritual cleansing and protection we are able to maintain healthy energy fields that stay true to our own energy and life purpose. This allows the physical and spiritual bodies to work at full potential. Join me for a workshop that will include spiritual cleansing and powerful protections. You will learn several cleansing techniques from different cultures to use on yourself and on others. You will practice these techniques in class. Each participant will gain a working knowledge of cleansing techniques, receive a spiritual cleansing, and take home a cleansing tool.

TAKE CHARGE OF YOUR ENERGY BEFORE SOMEONE ELSE DOES!! *-Andrea Wadsworth*
